Independent Auditors' Report

The Board of Commissioners of the Sixth Taxing District of the City of Norwalk, Connecticut (Rowayton)

Report on the Financial Statements

We have audited the accompanying financial statements of the governmental activities and each major fund of the Sixth Taxing District of the City of Norwalk, Connecticut (Rowayton) ("District") as of and for the year ended June 30, 2021, and the related notes to the financial statements, which collectively comprise the District's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditors' judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the District's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the District's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinions

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities and each major fund of the District, as of June 30, 2021, and the respective changes in financial position, and the respective budgetary comparison for the General Fund for the year then ended in conformity with accounting principles generally accepted in the United States of America.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that Management's Discussion and Analysis be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Supplementary and Other Information

Our audit for the year ended June 30, 2021 was conducted for the purpose of forming opinions on the financial statements that collectively comprise the District's basic financial statements. The combining and individual fund financial statements and schedules and other supplemental information for the year ended June 30, 2021 are presented for purposes of additional analysis and are not a required part of the basic financial statements.

The combining and individual fund financial statements and schedules and other supplemental information are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements for the year ended June 30, 2021 and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the combining and individual fund financial statements and schedules and the other supplemental information are fairly stated, in all material respects, in relation to the basic financial statements as a whole for the year ended June 30, 2021.

We also previously audited, in accordance with auditing standards generally accepted in the United States of America, the basic financial statements of the District as of and for the year ended June 30, 2020 (not presented herein), and have issued our report thereon dated January 21, 2021, which contained unmodified opinions on the respective financial statements of the governmental activities and each major fund. The combining and individual fund financial statements and schedules for the year ended June 30. 2020 are presented for purposes of additional analysis and are not a required part of the basic financial statements. Such information is the responsibility of management and was derived from and relate directly to the underlying accounting and other records used to prepare the 2020 financial statements. The combining and individual fund financial statements and schedules have been subjected to the auditing procedures applied in the audit of the 2020 basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare those financial statements or to those financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the combining and individual fund financial statements and schedules are fairly stated in all material respects in relation to the basic financial statements as a whole for the year ended June 30, 2020.

Management's Discussion and Analysis ("MD&A") For the Year-Ended June 30, 2021

The management of the Sixth Taxing District of the City of Norwalk, Connecticut (Rowayton) ("District") provides this narrative overview and analysis of the financial activities of the District for the fiscal year ended June 30, 2021. We encourage readers to read the narrative presented in conjunction with the basic financial statements and the accompanying notes to those statements that follow this section.

Introduction

The District was formally established in 1921 as one of the six taxing districts of the City of Norwalk, Connecticut, to provide its residents with street lighting, firefighting equipment, and waste collection. Today, the Fire Department is located in the village "downtown" and is staffed by the volunteer firefighters of Rowayton Hose Company No.1. Over time the District has acquired Neville Bayley Beach Park, Pinkney Park, the Community Center (that also houses the Library) and repurposed the building, which was formerly the library that is now the Arts Center. In addition, the District maintains parking facilities "downtown" as well as at the leased Rowayton Railroad station serving area commuters.

The District's operations and administration are focused on five main areas:

- Home and Community Services—providing street lighting and solid waste collection
- Public Safety—providing fire protection to the District
- Transportation—providing downtown and railroad station parking
- Culture and Recreation—maintaining Bayley Beach, the Community Center, the Arts Center, and Pinkney Park
- General Government Support—providing personnel services, commissioner services and administration

Overview of the Financial Statements of the District

This discussion and analysis (MD&A) serves as an introduction to the District's financial statements. The basic financial statements include three components: 1) government-wide financial statements, 2) fund financial statements and 3) notes to the financial statements. This report also includes other supplementary information as listed in the table of contents.

Government-Wide Financial Statements

The government-wide financial statements are designed to provide the readers with a broad, all inclusive, overview of the District's finances in a manner similar to private-sector business financial statements.

The Statement of Net Position presents the total assets and liabilities with the difference reported as net position. Over time, increases or decreases in the net position may serve as a useful indicator as to whether the financial position of the District is improving or deteriorating.

The Statement of Activities presents information showing the change in the net position during the current fiscal year. All revenues and expenses are reported as soon as the underlying event giving rise to the change occurs, regardless of the timing of related cash flows. Thus, revenues and expenses are reported in this statement for some items that will result in cash flows in future fiscal periods (for example, later receipt of presently uncollected taxes). The focus of this statement is on the net cost of providing various activities to the residents of the District.

The government-wide financial statements distinguish functions of the District that are principally supported by taxes and intergovernmental revenues (governmental activities). The governmental activities of the District include general government support, public safety, transportation, culture and recreation, home and community services, community grants and interest.

The government-wide financial statements can be found immediately following this discussion and analysis.

Fund Financial Statements

<u>Governmental Funds</u>: Governmental fund financial statements focus on current inflows and outflows of spendable resources as well as the available balances of these resources at the end of the fiscal year. This information is useful in determining the District's financing requirements for the subsequent fiscal period. Governmental funds use the flow of current financial resources measurement focus and the modified accrual basis of accounting.

The District has three individual governmental funds; General Fund, Parking Fund and Capital Projects Fund. Information is presented separately in the governmental fund balance sheet and in the governmental fund schedule of revenues, expenditures and changes in fund balances.

The District adopts an annual budget for the General Fund through a formal process involving the District electors who choose to attend the Annual District Meeting. A budgetary comparison statement has been provided for the General Fund within the basic financial statements to demonstrate compliance with the budget.

The Parking Fund is restricted to the operation of the station parking lots and the maintenance of the station and parking facilities. Per the leasing agreement with the Connecticut Department of Transportation, revenue received into the Parking Fund cannot be transferred to the District for other uses. The Parking Fund is self-supporting via the collection of annual parking permit sales and daily parking fees.

The District electors also formally approve and appropriate funds for capital projects which are then transferred to the Capital Projects Fund from the General Fund. Capital Project funds not expended are returned to the General Fund.

Notes to the Financial Statements

The notes to the financial statements provide additional information that is essential to a full understanding of the data provided in the government-wide and fund financial statements and can be found following the basic financial statements section of this report.

Other Information

Additional statements and schedules can be found immediately following the notes to the financial statements.

Financial Highlights

Key financial highlights for the fiscal year ended June 30, 2021, are as follows:

- The government-wide financial statements reflect a net position of \$3,631,007 at June 30, 2021, and reflected \$3,736,037 at June 30, 2020 (resulting in a net position decrease of \$105,030).
- The governmental funds reported combined ending fund balances of \$1,225,784, an increase of \$68,626 from the prior year amount of \$1,157,158.
- The General Fund reported ending fund balance of \$627,386; the portion of this balance restricted for Debt Service was \$45,650. The unassigned portion was \$581,736 and was available for future uses specified by the district electors.
- During the fiscal year ending June 30, 2021, the District paid down \$112,405 of its loans payable. The total outstanding loans payable to the City of Norwalk, Connecticut at June 30, 2021 totaled \$1,072,154.
- During the fiscal year ending June 30, 2021, \$191,280 was transferred from the General Fund to the Capital Projects Fund to finance the cost of ongoing projects.
- The Capital Projects Fund's ending fund balance was \$400,659; an increase of \$114,230 from the previous fiscal year balance of \$286,429.
- For the fiscal year ended June 30, 2021 no major capital projects were completed due to projects being delayed because of the effects of the Covid-19 Pandemic.

Government-Wide Financial Analysis

Overtime net position may serve as one measure of a government's financial position. The District's governmental net position has decreased by \$105,030 from a year ago. The analysis below focuses on the net position and changes in net position (statement of activities) of the District's governmental activities.

Condensed Statement of Net Position

	 2021	-	2020		2020		\$ Change	% Change
Cash and receivables	1,398,486			1,321,335				
Capital Assets	 3,488,678	-		3,775,926				
Total Assets	\$ 4,887,164	-	\$	5,097,261	\$ (210,097)	-4%		
Current Liabilities	\$ 184,003			176,665				
Long-term Liabilities	 1,072,154	-		1,184,559				
Total Liabilitites	 1,256,157	-		1,361,224	\$ (105,067)	-7.7%		
Net Investment in								
Capital Assets	2,416,524			2,591,367				
Restricted	446,309			332,079				
Unrestricted	768,174			812,591				
Total Net Position	\$ 3,631,007	:	\$	3,736,037	\$ (105,030)	-3%		

By far, the largest component of the District's net position is its investment in capital assets, less any debt used to acquire those assets. The District uses these capital assets to provide services to citizens; consequently, these assets are not available for future spending. Although the District's investment in capital assets is reported net of the related debt, it should be noted that the resources needed to repay this debt must also be provided from other sources, since capital assets alone cannot be used to liquidate these liabilities.

The restricted net position of \$446,309, represents resources that are subject to external restrictions on their use. The restrictions are:

Debt Service	\$ 45,650
Capital Projects	 400,659
	\$ 446,309

The remaining balance representing unrestricted net position of \$768,174, may be used to meet the District's ongoing obligations to citizens and creditors.

Sources of Revenues for Fiscal Year Ending June 30, 2021

Governmental Activities

For the fiscal year ended June 30, 2021, revenues from governmental activities totaled \$2,012,611. Tax revenues comprised of real property taxes, the rebate provision and interest and penalties on taxes, represented the largest revenue source at 90% of total revenue. The District expenses were \$2,117,641.

Financial Analysis of the District's Funds

The District uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements.

Governmental Funds

General Fund Budgetary Highlights

The General Fund is the primary operating fund of the District. As of June 30, 2021, the total fund balance of the General Fund was \$627,386.

Actual results of operations resulted in an excess of revenues over expenditures of \$136,239; before the transfer out to the Capital Projects Fund of \$191,280 resulting in a net change in Fund Balance of (\$55,041). Actual revenues were greater than the final budget by \$13,559 while expenditures had a unfavorable variance of (\$68,600).

Parking Fund Budgetary Highlights

The Parking Fund is assigned and can only be used for daily expenses and maintenance incurred by the Rowayton Railroad parking lots. As of June 30, 2021 the assigned fund balance was \$197,739 which was \$9,437 greater than the previous fiscal year.

Capital Projects Fund Budgetary Highlights

The Capital Projects Fund is used for capital project activity throughout the District. The Capital Projects Fund's ending fund balance was \$400,659 and \$286,429 for fiscal years ending June 30, 2021 and 2020, respectively and consisted of the following capital projects grouped and valued by cost center:

•	 2021	 2020			
Arts Center	\$ 10,000	\$ _			
Bayley Beach	227,170	162,908			
Community Center	1,067	1,067

Municipal Lot	29,380	5,412			
Pinkney Park	10,000	-			
Reserve for Little League	12,721	6,721			
Reserve for Future Projects	 110,000	 110,000			
	\$ 400,659	\$ 286,429			

Capital Assets

The District's investment in capital assets for its governmental activities as of June 30, 2021 was \$3,488,678, net of accumulated depreciation of \$2,894,620. This investment includes land, buildings and improvements, machinery and equipment.

		2021	_	2020
Land Buildings and Improvements - net Machinery and Equipment - net	\$	573,108 2,538,071 377,499	\$	573,108 2,772,245 430,573
Total	<u>\$</u>	<u>3,488,678</u>	\$	3,775,926

Additional information on the District's capital assets can be found in Note 3C of this report.

Long-term Debt

At June 30, 2021, the District had total debt outstanding of \$1,072,154 payable to the City of Norwalk, Connecticut.

Additional information on the District's long-term debt can be found in Note 6 of this report.

Requests for Information

This financial report is designed to provide a general overview of the District's finances for all those with an interest in the government's finances. Questions concerning any of the information provided in this report or requests for additional financial information should be addressed to Gil Kernan, Treasurer, Sixth Taxing District, City of Norwalk, PO Box 246, Rowayton, CT 06853. The telephone number is (203) 854-6666 Ext. 3.

Notes to Financial Statements June 30, 2021

Note 1 - Summary of Significant Accounting Policies

The Sixth Taxing District of the City of Norwalk, Connecticut (Rowayton) ("District") consists of Norwalk's Sixth (excluding sewered portion) and Seventh (sewered portion of the Sixth) Taxing Districts. The District elects a Board of Commissioners who manage the affairs and business of the District according to the City of Norwalk's Charter for its Taxing Districts. The District provides library, fire protection, recreation, parking facilities and refuse services to its residents. The District is within the City of Norwalk, Connecticut ("City") and levies and collects all property taxes through the City's Tax Collector's office which remits the collections to the District.

The financial statements of the District have been prepared in conformity with accounting principles generally accepted in the United States of America as applied to governmental units. The Governmental Accounting Standards Board ("GASB") is the accepted standard setting body for establishing governmental accounting and financial reporting principles. The District's significant accounting policies are described below:

A. Financial Reporting Entity

The financial reporting entity consists of a) the primary government which is the District, b) organizations for which the District is financially accountable and c) other organizations for which the nature and significance of their relationship with the District are such that exclusion would cause the reporting entity's financial statements to be misleading or incomplete as set forth by GASB.

In evaluating how to define the District, for financial reporting purposes, management has considered all potential component units. The decision to include a potential component unit in the District's reporting entity was made by applying the criteria set forth by GASB, including legal standing, fiscal dependency and financial accountability. Based upon the application of these criteria, there are no other entities' which would be included in the financial statements.

B. Government-Wide Financial Statements

The government-wide financial statements (i.e., the Statement of Net Position and the Statement of Activities) report information on all non-fiduciary activities of the District as a whole. For the most part, the effect of interfund activity has been removed from these statements, except for interfund services provided and used.

The Statement of Net Position presents the financial position of the District at the end of its fiscal year. The Statement of Activities demonstrates the degree to which direct expenses of a given function or segments are offset by program revenues. Direct expenses are those that are clearly identifiable with a specific function or segment. Program revenues include: (1) charges to customers or applicants who purchase, use or directly benefit from goods or services, or privileges provided by a given function or segment, (2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function or segment and (3) interest earned on grants that is required to be used to support a particular program. Taxes and other items not identified as program revenues are reported as general revenues. The District does not allocate indirect expenses to functions in the Statement of Activities.

While separate government-wide and fund financial statements are presented, they are interrelated. Separate financial statements are provided for governmental funds. Major individual governmental funds are reported as separate columns in the fund financial statements.

Notes to Financial Statements (Continued) June 30, 2021

Note 1 - Summary of Significant Accounting Policies (Continued)

C. Fund Financial Statements

The accounts of the District are organized and operated on the basis of funds. A fund is an independent fiscal and accounting entity with a self-balancing set of accounts which comprise its assets, deferred outflows of resources, liabilities, deferred inflows of resources, fund balances, revenues and expenditures. Fund accounting segregates funds according to their intended purpose and is used to aid management in demonstrating compliance with finance related legal and contractual provisions. The District maintains the minimum number of funds consistent with legal and managerial requirements. The focus of governmental fund financial statements is on major funds as that term is defined in professional pronouncements. Each major fund is to be presented in a separate column, with non-major funds, if any, aggregated and presented in a single column. Since the governmental fund statements are presented on a different measurement focus and basis of accounting than the government-wide statements' governmental activities column, a reconciliation is presented on the same page or the page following, which briefly explains the adjustments necessary to transform the fund based financial statements into the governmental activities column of the government-wide presentation. The District's resources are reflected in the fund financial statements in one broad category, in accordance with generally accepted accounting principles as follows:

Fund Category

<u>Governmental Funds</u> - Governmental Funds are those through which most general government functions are financed. The acquisition, use and balances of expendable financial resources and the related liabilities are accounted for through governmental funds. The following are the District's major governmental funds:

General Fund - The General Fund constitutes the primary fund of the District and is used to account for and report all financial resources not accounted for and reported in another fund.

Special Revenue Funds - Special revenue funds are used to account for and report the proceeds of specific revenue sources that are restricted, committed or assigned to expenditures for specified purposes other than debt service or capital projects. The major special revenue fund of the District is the Parking Fund. The Parking Fund is used to account for the receipts and operations of the Rowayton Railroad Station parking lot.

Capital Projects Fund - The Capital Projects Fund is used to account for and report financial resources that are restricted, committed or assigned to expenditures for capital outlays, including the acquisition or construction of major capital facilities and other capital assets.

D. Measurement Focus, Basis of Accounting and Financial Statement Presentation

The accounting and financial reporting treatment is determined by the applicable measurement focus and basis of accounting. Measurement focus indicates the type of resources being measured such as current financial resources (current assets less current liabilities) or economic resources (all assets and liabilities). The basis of accounting indicates the timing of transactions or events for recognition in the financial statements.

Notes to Financial Statements (Continued) June 30, 2021

Note 1 - Summary of Significant Accounting Policies (Continued)

The government-wide financial statements are reported using the *economic resources measurement focus* and the *accrual basis of accounting*. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Property taxes are recognized as revenues in the year for which they are levied. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met.

Governmental fund financial statements are reported using the *current financial resources measurement focus* and the *modified accrual basis of accounting*. Revenues are recognized when they have been earned and they are both measurable and available. Revenues are considered to be available when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. Property taxes are considered to be available if collected within sixty days of the fiscal year end. If expenditures are the prime factor for determining eligibility, revenues from Federal and State grants are recognized as revenues when the expenditure is made and the amounts are expected to be collected within one year of the fiscal year end. A ninety day availability period is generally used for revenue recognition for most other governmental fund revenues. Expenditures generally are recorded when a liability is incurred, as under accrual accounting. However, debt service expenditures are recorded only when payment is due. General capital asset acquisitions are reported as expenditures in governmental funds. Issuance of long-term debt and acquisitions under capital leases are reported as other financing sources.

E. Assets, Liabilities, Deferred Inflows of Resources and Net Position or Fund Balances

Cash and Equivalents, Investments and Risk Disclosure

Cash and Equivalents - Cash and equivalents consist of funds deposited in demand deposit accounts, time deposit accounts and short-term investment with original maturities of less than three months from the date of acquisition. The deposit of public funds is controlled by the Connecticut General Statutes (Section 7-402). Deposits may be made in a "qualified public depositary" as defined by the statutes or, in amounts not exceeding the Federal Deposit Insurance Corporation insurance limit, in an "out of state bank" as defined by the statutes, which is not a "qualified public depository".

Investments - The investment policies of the District conform to the policies as set forth by the State of Connecticut. The District's policy is to only allow prequalified financial institution broker/dealers and advisors. The District policy allows investments in the following: (1) obligations of the United States and its agencies; (2) highly rated obligations of any state of the United States or of any political subdivision, authority or agency thereof; and (3) shares or other interests in custodial arrangements or pools maintaining constant net assets values and in highly rated no-load open end money market and mutual funds (with constant or fluctuating net asset values) whose portfolios are limited to obligations of the United States and its agencies, and repurchase agreements fully collateralized by such obligations.

The District follows U.S. GAAP guidance on *fair value measurements* which defines fair value and establishes a fair value hierarchy organized into three levels based upon the input assumptions used in pricing assets. Level 1 inputs have the highest reliability and are related to assets with unadjusted quote prices in active markets. Level 2 inputs relate to assets with other than quoted prices in active markets which may include quoted prices for similar assets

Notes to Financial Statements (Continued) June 30, 2021

Note 1 - Summary of Significant Accounting Policies (Continued)

or liabilities or other inputs which can be corroborated by observable market data. Level 3 inputs are unobservable inputs and are used to the extent that observable inputs do not exist.

Risk Disclosure

Interest Rate Risk - Interest rate risk is the risk that the government will incur losses in fair value caused by changing interest rates. The District does not have a formal investment policy that limits investment maturities as a means of managing its exposure to fair value losses arising from changing interest rates. Generally, the District does not invest in any long-term investment obligations.

Custodial Credit Risk - Custodial credit risk is the risk that in the event of a bank failure, the District's deposits may not be returned to it. The District's policy for custodial credit risk is to invest in obligations allowable under the Connecticut General Statutes.

The District's custodial risk policy is only to allow the District to use banks that are in the State of Connecticut. The State of Connecticut requires that each depository maintain segregated collateral in an amount equal to a defined percentage of its public deposits based upon the bank's risk based capital ratio.

Credit Risk - Credit risk is the risk that an issuer or other counterparty will not fulfill its specific obligation even without the entity's complete failure. The District does not have a formal credit risk policy other than restrictions to obligations allowable under the Connecticut General Statutes.

Concentration of Credit Risk - Concentration of credit risk is the risk attributed to the magnitude of a government's investments in a single issuer. The District follows the limitations specified in the Connecticut General Statutes. Generally, the District's deposits cannot be 75% or more of the total capital of any one depository.

Property Taxes Receivable/Payable - The District's property tax is levied and payable each July 1 on the assessed value listed as of the prior October 1 for all real property located in the District. Liens are effective on the assessment date and are continued by filing prior to the following levy date. Assessed values are established at 70 percent of estimated market value to conform to State of Connecticut statutes.

The District's real property tax levy is collected by the City of Norwalk, Connecticut's ("City") Collector of Taxes and Assessments. The City is responsible for the billing and collection of all taxes and foreclosure proceedings. The City remits payments to the District based upon collections. The District reconciles the property tax revenue to the City's Annual Tax Collector's Report which showed a property tax receivable for \$7,630 at June 30, 2021 and is reported in the General Fund as property taxes receivable.

Other Receivables - Other receivables include amounts due from other governments and individuals for services provided by the District. Receivables are recorded and revenues recognized as earned or as specific program expenses/expenditures are incurred. Allowances are recorded when appropriate.

Notes to Financial Statements (Continued) June 30, 2021

Note 1 - Summary of Significant Accounting Policies (Continued)

Due From/To Other Funds - During the course of its operations, the District has numerous transactions between funds to finance operations, provide services and construct assets. To the extent that certain transactions between funds had not been paid or received as of June 30, 2021, balances of interfund accounts receivable or payable have been recorded in the fund financial statements.

Capital Assets - Capital assets have been acquired for general governmental purposes. Assets are reported in the governmental column in the government-wide financial statements. Capital assets are defined by the District as assets with an initial, individual cost of more than \$5,000 and an estimated useful life in excess of one year. Such assets are recorded at historical cost or estimated historical cost if purchased or constructed. Donated capital assets are recorded at acquisition value at the date of donation. Acquisition value is the price that would be paid to acquire an asset with equivalent service potential on the date of the donation.

Major outlays for capital assets and improvements are capitalized as projects are constructed. The cost of normal maintenance and repairs that do not add to the value of the asset or materially extend assets lives is not capitalized.

Land is not depreciated. Property, plant and equipment of the District are depreciated using the straight line method over the following estimated useful lives.

	Life
Class	in Years
Buildings and improvements	20-40
Machinery and equipment	5-10

The costs associated with the acquisition or construction of capital assets are shown as capital outlay expenditures on the governmental fund financial statements. Capital assets are not shown on the governmental fund balance sheet.

Long-Term Liabilities - In the government-wide financial statements, long-term debt and other long-term obligations are reported as liabilities in the Statement of Net Position. Loans payable are reported net of the applicable bond premium or discount. Loan issuance costs are expended as incurred.

In the fund financial statements, governmental funds recognize loan premiums and discounts, as well as loan issuance costs, during the current period. The face amount of debt issued is reported as other financing sources. Premiums received on debt issuances are reported as other financing sources while discounts on debt issuances are reported as other financing uses. Issuance costs, whether or not withheld from the actual debt proceeds received, are reported as Capital Projects Fund expenditures.

Net Position - Net Position represents the difference between assets, deferred outflows of resources, liabilities and deferred inflows of resources. Net position is comprised of three components: net investments in capital assets, restricted and unrestricted.

Notes to Financial Statements (Continued) June 30, 2021

Note 1 - Summary of Significant Accounting Policies (Continued)

Net investment in capital assets consists of capital assets, net of accumulated depreciation/amortization and reduced by outstanding balances of bonds and other debt that are attributable to the acquisition, construction, or improvement of those assets. Deferred outflows of resources and deferred inflows of resources that are attributable to the acquisition, construction, or improvement of those assets or related debt are also included in this component of net position.

Restricted net position consists of restricted assets reduced by liabilities and deferred inflows of resources related to those assets. Assets are reported as restricted when constraints are placed on assets use either through the enabling legislation adopted by the district or trough external restrictions imposed by creditors, grantors, or laws or regulations of other governments. Restricted net position for the District includes restricted for capital project and debt service.

Unrestricted net position is the net amount of the assets, deferred outflows of resources, liabilities, and deferred inflows of resources that does not meet the definition of the two proceeding categories.

Fund Balance - Generally, fund balance represents the difference between assets, deferred outflows of resources, current liabilities and deferred inflows of resources. In the fund financial statements, governmental funds report fund classifications that comprise a hierarchy based primarily on the extent to which the District is bound to honor constraints on the specific purposes for which amounts in those funds can be spent. Under this standard, the fund balance classifications are as follows:

Nonspendable fund balance includes amounts that cannot be spent because they are either not in spendable form (inventories, prepaid amounts, long-term receivables) or they are legally or contractually required to be maintained intact (the corpus of a permanent fund).

Restricted fund balance, if any, is reported when constraints placed on the use of the resources are imposed by grantors, contributors, laws or regulations of other governments or imposed by law through enabling legislation. Enabling legislation includes a legally enforceable requirement that these resources be used only for the specific purposes as provided in the legislation.

Committed fund balance, if any, is reported for amounts that can only be used for specific purposes pursuant to formal action of the entity's highest level of decision making authority. The Commissioners are the District's highest level of decision making authority. These funds may only be used for the purpose specified unless the entity removes or changes the purpose by taking the same action that was used to establish the commitment. This classification includes certain amounts established and approved by the Commissioners.

Assigned fund balance, in the General Fund, represent amounts constrained by the Commissioners. An assignment cannot result in a deficit in the unassigned fund balance in the General Fund. Unlike commitments, assignments generally only exist temporarily in that additional action does not normally have to be taken for the removal of an assignment. Assigned fund balance in all other governmental funds represents any positive remaining amount after classifying nonspendable, restricted or committed fund balance amounts.

Unassigned fund balance, in the General Fund, represents amounts not classified as nonspendable, restricted, committed or assigned. The General Fund is the only fund that

Notes to Financial Statements (Continued) June 30, 2021

Note 1 - Summary of Significant Accounting Policies (Continued)

would report a positive amount in unassigned fund balance. For all governmental funds other than the General Fund, any deficit fund balance is reported as unassigned.

In order to calculate the amounts to report as restricted and unrestricted fund balance in the governmental fund financial statements, a flow assumption must be made about the order in which the resources are considered to be applied. When both restricted and unrestricted amounts of fund balance are available for use for expenditures incurred, it is the District's policy to use restricted amounts first and then unrestricted amounts as they are needed. For unrestricted amounts of fund balance, it is the District's policy to use fund balance in the following order: committed, assigned, and unassigned.

F. Use of Estimates

The preparation of the financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets, deferred outflows of resources, liabilities and deferred inflows of resources and disclosures of contingent assets and liabilities at the date of the financial statements. Estimates also affect the reported amounts of revenues and expenditures/expenses during the reporting period. Actual results could differ from those estimates.

G. Subsequent Events Evaluation by Management

Management has evaluated subsequent events for disclosure and/or recognition in the financial statements through the date that the financial statements were available to be issued, which date is January 6, 2022.

Note 2 - Stewardship, Compliance and Accountability

A. Budgetary Data

The District generally establishes the budgetary data reflected in the financial statements as follows:

- Prior to the commencement of a fiscal year, an estimate of proposed expenditures and the means of financing them for that year are prepared.
- A public hearing is held at a location within the District to obtain taxpayers' votes.
- Historically, the District's approved budget is submitted for approval to the City of Norwalk Board of Estimate and Taxation; however, the Commissioners of the Sixth Taxing District perform all of the business functions of the District without intervention by the Board of Estimate and Taxation.
- All expenditures over budgeted appropriations are approved at the next annual budget meeting.
- The General and Capital Projects funds are under budgetary control. All unencumbered appropriations lapse at year-end, except those for the Capital Projects Fund. Appropriations for capital projects are continued until completion of the applicable projects, even when projects extend more than one fiscal year.

Notes to Financial Statements (Continued) June 30, 2021

Note 2 - Stewardship, Compliance and Accountability (Continued)

B. Budgetary Overexpenditures

The following General Fund functional expenditure categories exceeded their budgetary authorization by the amounts indicated:

General Government Support	
District	\$ 18,643
Insurance	11,281
Legal Services	2,566
Audit	2,350
Technology	8,251
Public Safety	
Fire department	7,935
Fire hydrant rental	10,400
Culture and recreation	
Arts center	1,067
Home and Community Services	
Disposal Fees	9,487
Employee benefits	61,758

Note 3 - Detailed Notes on All Funds

A. Custodial Credit Risk and Concentrations of Credit Risk

Custodial credit risk is the risk that in the event of a bank failure, the District's deposits will not be returned. The deposit of public funds is controlled by the Connecticut General Statues. GASB Statement No. 40 "Deposits and Investments Risk Disclosures — An Amendment of GASB Statement No. 3" directs that deposits be disclosed as exposed to custodial credit risk if they are not covered by depository insurance and the deposits are either uncollateralized, collateralized by securities held by the pledging financial institution or collateralized by securities held by the pledging institution's trust department but not in the District's name.

As of June 30, 2021, the District's bank balance of \$1,437,949 was exposed to custodial credit risk as follows:

Covered by Federal Depository Insurance	\$ 500,000
Covered by Connecticut State Statutes	93,795
Uninsured and uncollateralized	 844,154
Total	\$ 1,437,949

The District uses three banks and deposits do not exceed more than 75% or more of the total capital of any one depository.

Notes to Financial Statements (Continued) June 30, 2021

Note 3 - Detailed Notes on All Funds (Continued)

B. Interfund Receivables/Payables

The balances reflected as due from/to other funds at June 30, 2021, were as follows:

	Due		Due			
Fund	 From To					
General Parking Capital Projects	\$ 166,848 - 567,466	\$	567,466 15,576 151,272			
	\$ 734,314	\$	734,314			

The outstanding balances between funds result mainly from the time lag between the dates that 1) interfund goods and services are provided or reimbursable expenditures occur, 2) transactions are recorded in the accounting system and 3) payments between funds are made.

C. Capital Assets

Changes in the District's capital assets are as follows:

	Balance July 1, 2020		Additions	Balance June 30, 2021
Total Capital Assets, not being depreciated -				
Land	\$ 573,108	<u>\$</u>		\$ 573,108
Capital Assets, being depreciated: Buildings and improvements	\$ 4,490,206	\$	27,541	\$ 4,517,747
Machinery and equipment	 1,273,413		19,030	 1,292,443
Total Capital Assets, being depreciated	5,763,619		46,571	5,810,190
Less Accumulated Depreciation for: Buildings and improvements Machinery and equipment	 1,717,961 842,840		261,715 72,104	1,979,676 914,944
Total Accumulated Depreciation	 2,560,801		333,819	 2,894,620
Capital Assets, being depreciated, net	\$ 3,202,818	\$	(287,248)	\$ 2,915,570
Capital Assets, net	\$ 3,775,926	\$	(287,248)	\$ 3,488,678

Notes to Financial Statements (Continued) June 30, 2021

Note 3 - Detailed Notes on All Funds (Continued)

For the government-wide financial statements, depreciation expense was charged to the District's functions and programs as follows:

General government support	\$ 1,280
Public safety	48,673
Transportation	42,995
Culture and recreation	 240,871
	\$ 333,819

D. Interfund Transfers

Interfund transfers are defined as the flow of assets, such as cash or goods and services, without the equivalent flow of assets in return. The interfund transfers reflected below have been reflected as transfers:

	Transfer In
	Capital
	Projects
Transfers Out	Fund
General Fund	\$ 191,280

Transfers were used to move funds from the General Fund to the Capital Projects Fund to fulfill commitments for Capital Projects Fund expenditures.

E. Net Position

The components of Net Position are detailed below:

Net Investment in Capital Assets - the component of Net Position that reports the difference between capital assets less both the accumulated depreciation and the outstanding balance of debt, excluding unexpended proceeds, that is directly attributable to the acquisition, construction or improvement of those assets.

Restricted for Debt Service - the component of Net Position that reflects funds set aside for payment of debt.

Restricted for Capital Projects - the component of Net Position that reflects funds set aside for capital projects exclusive of unexpended loan proceeds and unrestricted interest earnings.

Unrestricted - all other amounts that do not meet the definition of "restricted" or "net investment in capital assets".

Notes to Financial Statements (Continued) June 30, 2021

Certain elements of fund balance are described above. Those additional elements which are not reflected in the Statement of Net Position but are reported in the governmental funds balance sheet are described below.

Assigned for Parking Fund represents the component of fund balance that reports the difference between assets and liabilities of the Parking Fund.

Note 4 - Contingent Amount Payable to the State of Connecticut

The Parking Fund ("Fund") is used to account for the proceeds of revenue sources of the Rowayton Railroad Station parking lot. The Rowayton Railroad Station parking lot is located on property owned by the State of Connecticut ("State"). The State has leased this property to the District. Under the lease agreement, the District may be required to pay the State fifty percent of any surplus generated by the Fund if it is not used for maintenance and improvements to the lot. At June 30, 2021, the fund balance amounted to \$197,739.

Note 5 - Risk Management

The District purchases various insurance coverages to reduce its exposure to loss. The District maintains general liability insurance with policy limits of \$3 million and public officials' liability insurance coverage of \$1 million per occurrence and \$1 million in the aggregate. The District also maintains an umbrella policy which provides coverage up to \$10 million per claim (\$10 million in the aggregate). Workers' compensation is secured with statutory coverages. Settled claims resulting from these risks have not exceeded commercial insurance coverage in any of the past three fiscal years.

The District is self-insured for claims arising from unemployment benefit cases. Unemployment benefits are accounted for in the General Fund. There were no claims for unemployment benefits as of June 30, 2021.

Notes to Financial Statements (Continued) June 30, 2021

Note 6 - Long-Term Liabilities

The following table summarizes changes in the District's long-term indebtedness for the year ended June 30, 2021:

			Ν	/laturities				
		Balance		and/or		Balance	D	ue Within
	J	uly 1, 2020	Payments		June 30, 202		(One Year
Loans Payable	\$	1,184,559	\$	112,405	\$	1,072,154	\$	112,405

Loans payable at June 30, 2021 that are borrowed from the City were comprised of the following:

Purpose	Year of Issue	Original Issue Amount	Final Maturity	Interest Rates		Amount Outstanding at June 30, 2021
Ambler project	2006	\$ 150,000	July, 2026	4.41 %	\$	52,332
Fire truck	2009	300,000	July, 2029	2.45		153,156
Community Center	2011	400,000	July, 2031	3.43		220,000
Community Center Phase II	2012	400,000	July, 2027	2.08		186,666
Community Center Phase III	2016	300,000	January, 2032	2.23		220,000
Community Center Phase IV	2018	300,000	April, 2033	2.63	_	240,000
					\$	1,072,154

Interest expenditures of \$32,585 were recorded in the fund financial statements in the General Fund. Interest expense of \$31,398 was recorded in the government-wide financial statements.

Payments to Maturity

The annual requirements to amortize all outstanding debt as of June 30, 2021, including interest payments of \$156,790 are as follows:

Year Ended June 30,	Principal	 Interest	Total
2022	\$ 112,405	\$ 29,444	\$ 141,849
2023	112,405	26,280	138,685
2024	112,408	23,092	135,500
2025	112,408	19,873	132,281
2026-2030	482,528	53,048	535,576
2031-2033	 140,000	5,053	 145,053
	\$ 1,072,154	\$ 156,790	\$ 1,228,944

Notes to Financial Statements (Concluded) June 30, 2021

Note 6 - Long-Term Liabilities (Continued)

The above loans are direct obligations of the District for which full faith and credit are pledged and are payable from taxes levied on all taxable real property within the District.

The District's overall debt limitation cannot exceed seven times the total of taxes, interest and penalties on taxes and the rebate provision collected during the fiscal year. As reported in the District's Debt Limitation Schedule for the year ended June 30, 2021, this limitation was \$12,820,010. The category of debt pertinent to the District's operations is restricted to 2.25 times, or \$4,120,718.

Compensated Absences

There is no liability for unpaid accumulated vacation or sick leave since the District does not have a policy to pay such amounts when employees separate from service.

Note 7 - Pension Plan and Other Post Employment Benefit Obligations

The District does not participate in the State of Connecticut Municipal Employees Retirement System and does not offer any deferred compensation plan or other post-employment benefits.

Note 8 - Litigation and Contingencies

The District receives notices of claims for money damages occurring from property damage or personal injury. All the claims currently pending have been referred to the insurance carrier and none are expected to have a material effect on the District's financial position if adversely settled.

Note 9 - Subsequent Events

The District, in August 2021, obtained a loan from the City of Norwalk for \$550,000 with interest at rate of 1.686% payable to maturity in July 2036. Of this amount, \$350,000 is for financing the capital improvement project Parking Lot Expansion and \$200,000 is for financing the Rowayton Fire Department Communications System Upgrade project.

Note 10 - Recently Issued GASB Pronouncements

GASB Statement No. 87, "Leases", as amended by GASB Statement No. 95, "Postponement of the Effective Dates of Certain Authoritative Guidance", establishes a single model for lease accounting based on the concept that leases are a financing of a "right-to-use" underlying asset. As such, this statement requires a lessee to recognize a lease liability and an intangible right-of-use asset. A lessor will be required to recognize a lease receivable and a deferred inflow of resources. The requirements of this Statement are effective for reporting periods beginning after June 15, 2021.

This is not an all-inclusive of recently issued GASB pronouncements but rather a listing of Statements that the District believes will most impact its financial statements. The District will evaluate the impact this and other pronouncements may have on its financial statements and will implement them as applicable and when material.
